

My name is Jhana. I am a 33 year old born with Spina Bifida, Hydrocephalus and Klippel-Feil syndrome. I was 2 pounds and 3 ounces when I was born.

I called Hawaii my home for the past 33 years. I met my fiancé on Facebook. He lived in Massachusetts. And he came to Hawaii to be with me in 2018.

I am attending Full Sail University to get my BFA in Creative Writing. I graduate later this year.
