

Proud to Be Who I Am is a song about acceptance, resilience, and finding strength through life's challenges. Inspired by Disability Pride Month, this song reflects my personal journey of overcoming obstacles, embracing who I am, and refusing to let others define my worth.

Disability Pride, to me, isn't about celebrating disability itself—it's about celebrating the courage to keep moving forward, breaking expectations, and being proud of the person I've become. I hope this song encourages others to embrace their own journey and remember that they are more than what others see.
