Nice to Meet Me

[Verse 1]

Apparently, I'm famous,
With the lies you've told.
You made strangers believe you,
The stories will never grow old.
Apparently, I'm the girl
Who's destined to die alone.

I've even heard I've got a twin...
[giggles] maybe it's a clone.

[Pre-Chorus]
Everyone knows my life
Better than I do.
At least that's what they say.
I can't help but laugh
What will I hear tomorrow?

[Chorus]
Nice to meet me, I've heard so much.
I'm living two lives.
Every rumor gets a little more creative,
Like someone is writing chapters I never lived.
I can't wait until tomorrow,
To learn something new about myself.
If you're writing stories,
At least learn my name first.

[Verse 2]
I used to believe the whispers,
That made me cry at night.
I'd wake each morning with tears in my eyes,
Thinking maybe they were right.
Then one day, I walked away
From all the noise.

Now your words don't shake my world;
They've lost their hold on me.

[Pre-Chorus]

Everyone knows my life
Better than I do.
At least that's what they say.
I can't help but laugh.
What will I hear tomorrow?

[Chorus]

Nice to meet me, I've heard so much.
According to everyone else, I'm living two lives.
Every rumor gets a little more creative,
Like someone is writing chapters I never lived.
I can't wait until tomorrow,
To learn something new about myself.
If you're writing stories,
At least learn my name first.

[Bridge]

They laughed at the way I walk.
They said I wasn't good enough.
They said he was too perfect for me,
As if love was measured by appearances.
But they never lived our story.
They never saw what we built.

The truth doesn't need permission
From people who never knew it.

[Final Chorus]

Nice to meet me... thanks for the update.
I've almost forgotten the life you created.
Keep telling your stories if that's what you choose.
I'll keep living the truth you can't rewrite.
Apparently, I'm famous.
Apparently everybody knows me.

The only story that matters
Is the one I'm still writing

[Outro]

If you're writing stories,
At least learn my name first.
